In response to the official action mailed June 20, 2002, the following amendment and remarks are respectfully submitted in connection with the above application.

**AMENDMENTS**

**In the Claims:**

1. (Amended) A piezoelectric device comprising a monolithic multilayer form with a stack of at least two ceramic layers and an electrode layer set in between said two ceramic layers wherein said electrode layer contains elementary copper.

19. (Amended) The device according to claim 13, wherein cations are built on A-positions of the ceramic and where cations on B-positions are replaced by other cations or combinations of cations.
